

SIU35 Rugged COTS Systems 3U cPCI Sensor Interface Unit - SIU35

Configure with up to 15 I/O and communication function modules—

Over 100 different modules to choose from

The SIU35 is a highly configurable rugged system or subsystem ideally suited to support a multitude of Mil-Aero applications that require high-density I/O, communications, Ethernet switching and processing. The SIU35 leverages NAI's 3U boards to deliver off-the-shelf solutions that accelerate deployment of SWaP-optimized systems in air, land and sea applications.

Features

- COSA® Architecture
- 5x 3U cPCI or OpenVPX[™] Card Slots
 o Supports up to 15 I/O and/or
 - Communication smart functions
 - 100+ modules to choose from
- SBC-less stand-alone operation supported via Ethernet connection to your mission computer
- Processor Options: Freescale PowerPC™ QorIQ® P2041, Intel® Core™ i7 or ARM® Cortex®-A9
- COTS/NDI Sense & Response system

- Fast Boot Capability
- Customer Configurable I/O, Communications and Processing
- Reduced SWaP Footprint Conduction (CC) or Air (AC) Cooled
 - Versions • 4.78" x 8.71" x 7.13"
 - (incl. connectors)
 - 28 VDC input

- Wind River® Linux, VxWorks®, Xilinx® PetaLinux and Windows® Embedded Standard 7 OS support
- Continuous Background Built-In-Test (BIT)
- Specifications
 - Operating temp: -40°C to +71°C @ thermal interface, conduction cooled
 - Environmental/EMI
 - MIL-STD-461*
 - MIL-STD-810
 - MIL-STD-1275
 - MIL-STD-704

*MIL-STD-461F requires properly shielded cables and system grounding practices.

I/O Boards and Single Board Computers						
Туре	Model	Description		Туре	Model	Description
Single Board Computers	75ARM1	3U cPCI ARM Cortex-A9 Based Single Board Computer			<u>75D4</u>	cPCI-3U Multifunction I/O with Integrated High Speed Serial (RS- 232/422/423/485) and Discrete I/O
	75ARM1	3U cPCI ARM Cortex-A9 Based Single Board Computer		Multifunction I/O Boards	<u>75G5</u>	3U cPCI MFIO Board
	75INT2	3U cPCI Intel i7 Based Single Board Computer			<u>75G5</u>	3U cPCI MFIO Board
	75INT2	3U cPCI Intel i7 Based Single Board Computer			<u>75DL1</u>	cPCI-3U Digital-to-LVDT Simulation Motherboard
	75PPC1	3U cPCI PPC 2041 Based Single Board Computer		Single Function I/O Boards	<u>75DS1</u>	cPCI-3U Digital-to-Synchro/Resolver Simulation Motherboard
	75PPC1	3U cPCI PPC 2041 Based Single Board Computer			<u>75DS2</u>	cPCI-3U Digital-to-Synchro/Resolver/LVDT Simulation Motherboard
Multifunction I/O Boards	<u>75C3</u>	cPCI-3U Multifunction I/O Board		Rugged Power Supplies	<u>75PS4</u>	Power Supply Unit, 3U cPCI
	<u>75C5</u>	cPCI-3U Multifunction I/O Board				
Smart Function Module						
Туре	Module Category			Туре	Module Category	
Measurement & Simulation Modules	AC Reference			Communication Modules	<u>MIL-STD-1553B</u>	
	Chip Detector and Fuzz Burn				MIL-STD-1760	
	LVDT RVDT Measurement and Simulation		Ĩ		Serial Communications	
	Strain Gauge Measurement		Ī		Time-Triggered Ethernet	
	Synchro Resolver Measurement and Simulation		Ī		Analog-to-Digital	
	Thermocouple and RTD Measurement		Ī		Digital IO - Differential Transceiver	
	Variable Reluctance		1		Digital IO - TTL,CMOS	
Communication Modules	ARINC Communications			I/O Modules	Digital-to-Analog	
	CANBus Communications				Discrete IO	- Multichannel,Programmable
	Ethernet NIC Interface		1		<u>Relay</u>	
	Ethernet Switch		1 I	Combination Modules	MIL-STD-1553B, Discrete IO - Multichannel, Programmable	
	IEEE 1394 (FireWire)		1		MIL-STD-1	553B. ARINC Communications

Select up to 15 independent functions for your application with up to 5 card slots

Architected for Versatility

NAI's Configurable Open Systems Architecture[™] (COSA®) offers a choice of over 100 smart I/O, communications, or Ethernet switch functions, providing the highest packaging density and greatest flexibility of ruggedized embedded product solutions in the industry. Preexisting, fully-tested functions can be combined in an unlimited number of ways quickly and easily.

One-Source Efficiencies

Eliminate man-months of integration with a configured, field-proven system from NAI. Specification to deployment is a seamless experience as all design, state-of-the-art manufacturing, assembly and test are performed - by one trusted source. All facilities are located within the U.S. and optimized for high-mix/low volume production runs and extended lifecycle support.

Product Lifecycle Management

From design to production and beyond, NAI's product lifecycle management strategy ensures the long-term availability of COTS products through configuration management, technology refresh and obsolescence component purchase and storage.
